

# LED Light Bar

## Instant Feedback on Your Refrigeration System's Operation

- Driver friendly
  - Auto dimming feature increases brightness in direct sunlight, snow and on white or reflective backgrounds
  - Dim at night for less glare and safer operation
  - Green light indicates “OK”, Amber means “Check Unit”. Amber follows the microprocessor fault light and alarms can be read on the micro display
- High visibility with wide viewing angle
  - Perfect for both driver's mirror view, and long distance view on yard for distribution operations
- LED light bar provides lower lifecycle costs:
  - High-reliability, long-life LED arrays/no bulb replacements
  - Environmentally-sealed electronics/no opportunity for water intrusion
  - Low power design/80% current draw reduction from conventional product
- Can be used as a replacement for Carrier 8-light and Thermo King® light bars
- New low profile housing and lens design with UV protection
- Bracket mounted
- Covered by one year parts warranty
- Available at your local Carrier Transicold Dealer

Part Number	Description
76-02000-00	LED Light Bar Kit
