

460V Shore Power Extension Cable Kit

For use in connecting Carrier Transicold Vector™ refrigeration units to a shore power pedestal.

- Pre-assembled cable safely connects the Vector unit to AC current at an equipped electrified truck stop
- 67' length allows flexibility of trailer parking at truck stops, and meets minimum recommended length specification
- Carrier Transicold labeled 10/4 SOOW yellow cable, manufactured in the USA
- Ensures compliance with the Carrier Transicold Electrical Specification for Vector units
- Cable kit weight, 26.6 lbs
