

Vortex

RETURN AIR BULKHEAD

PATENT# 7,351,136

▲ A Vortex with one pair of pallet stops.

Lift-off removal ▶
in seconds

EASY ACCESS

Reduce short-cycling and maintain uniform product temperatures with the Vortex.

Need to access the refrigeration unit? It takes less than one minute to remove the bulkhead, clean the filter and re-attach it to the front wall.

- No hinges.
- No tools.

DESIGN & MATERIALS

A Return Air Bulkhead that makes sense. The Vortex offers:

- Patented installation design.
- Independent pallet stops. Replace only the high impact area, not the entire bulkhead.
- Pre-installed filter screen.
- Largest intake capacity in the industry.
- 100% rotationally molded polyethylene for uniform thickness.

▲ Replace only the stops.

Vortex QUICK INFO

- Recommended for all refrigerated distributors
 - 100% Recyclable
- Fits all protruded units
- Complete system includes: Vortex (36 lbs.), 2 pallet stops, mounting hardware, logistic strap and filter screen

Consider a **FG Insulated Bulkhead** to reduce cooling area!
